

DRS-Set-W20

The new developed wall saw blade with predetermined distribution of diamonds in the whole diamond segment, due to DRS-SET-technology, provides excellent cutting speed and superior lifetime in hardest, strong reinforced types of concrete.

- wall saws P 15-25 kW
- **DRS-SET-technology with predetermined distribution of diamonds**
- sandwich segments
- segment height 11 mm
- heavy reinforced concrete

DRS-SET-System

Dominance of excellence
